June 2025

Purpose:

The purpose of this report is to summarize results from the 2025 Spring Gobbler hunting season. Summaries include a breakdown of turkeys harvested by age class and sex (Table 1.), by sex and training area (Table 2.), harvest totals over the last 11 years (Figure 1.), and the harvest distribution across Marine Corps Base Quantico (Figure 2.).

	<i>Male</i>	<i>Female</i>
<i>Adult</i>	32	--
<i>Juvenile</i>	3	--
<i>Totals</i>	35	--
	35	

Table 1. Spring Gobbler Harvest by Age Class and Sex

Area	Male	Female	Total
Upshur 3B	1	--	1
5A	2	--	2
7A	3	--	3
7B	3	--	3
9C	1	--	1
9D	2	--	2
10A	2	--	2
10B	1	--	1
10C	2	--	2
12B	1	--	1
13	3	--	3
14A	1	--	1
14B	1	--	1
15A	2	--	2
15B	1	--	1
15C	2	--	2
16D	1	--	1
16G	5	--	5
OCS 3	1	--	1
Totals	35	--	35
% of Harvest	100%
